Technical Specifications

Model	Groups	Cups Per Hour	Height	Width	Depth	Weight	Boiler Capacity	Gas Rating	Electric Rating
CON2LPG	2	200/400	575mm	580mm	500mm	55kg	14L	5000watts	2.7kw/13Amp

Key Features

- Top quality copper boiler heated by multiple looped element or by gas.
- Pressure controlled by a triple contact pressure switch.
- Automatic water level system with a probe, electronic control unit and solenoid valve.
- The pressure of water and steam is separately controlled by brass safety valves.
- Hot water and steam are released by rotating the valve handles on the solid brass valves.
- Brass bodied group with stainless shower plate, solenoid valve and high pressure pump.
- Thermosyphonic circulation ensures the group is kept constantly hot for perfect coffee making with temperature control on each group.
